

Product catalogue

Innovate. Perform. Sustain.

South East Europe

Performance meets sustainability.

Welcome to the Vileda Professional product catalogue. Full of first-class cleaning solutions that support sustainable values and are driven by innovation and responsibility. Vileda Professional products are crafted to perfection, embodying our commitment to sustainability for you, your customers, and the planet. At Vileda Professional, we are driven by a clear goal: We aim to convert our focus on customer needs into cleaning solutions that not only provide you with a competitive edge, but also enable you to pledge your commitment to sustainability.

Clean meets Green.

For many years Vileda Professional has invested into the responsible handling of materials, waste, energy, emissions and water. All these efforts translate into sustainable cleaning solutions with superior ecological profiles, which turn into benefits for our customers. Users of Vileda Professional products rely on best-in-class cleaning performance, bacteria/virus removal, intuitive handling and ergonomics and accept no compromises in these elements. Our objective is to give additional confidence that the production, usage and disposal of our sustainable cleaning solutions has the lowest impact on the environment and global resources – throughout the whole product life cycle. That is why we offer sustainable cleaning solutions that have a minimal product footprint while reducing the consumption of resources during operation.

r - for recycled.

Making our economy sustainable is not a coincidence, but the direct result of actions we take – as companies and customers. That is why we created our "r"-line, a series of products that save resources without reducing performance or durability – made of up to 100% recycled materials.

Clear milestones mark our way to a sustainable future.

We are proud to announce that we are a signatory of the Ellen MacArthur Foundation's New Plastics Economy Global Commitment. As such, we are working to eliminate non-recyclable packaging and to achieve 100% recyclable, reusable, or compostable alternatives. Furthermore, we are continuously increasing the amount of recycled material in our solid plastic products themselves.

Customer comes first, and second, and third

Customer understanding is paramount: the better we understand your business, the better our products meet your complex needs. Your success is our success. That is why we have transformed our "Listen and Learn" approach to a customer-centric strategy. This customer focus is how we guarantee you get the best solutions and services to contribute to your competitive advantage. Be it in offices, hospitals, hotels or controlled environments, Vileda Professional stands ready as your partner.

Explore all our innovations and lead your business to sustainable success. Welcome to Vileda Professional!

Wiping

Which properties do you need? High absorbency for wet surfaces? Absolutely streak-free, lint-free cleaning for glossy surfaces? Removal of grease and stubborn fingerprints in a single wipe – without chemicals?

Which method suits your cleaning and hygiene tasks best? Bucket method? Spray-cleaning system or pre-preparation of cloths? Vileda Professional's comprehensive range includes cloths for every need and every system, from economical semi-disposables to advanced microfibres.

Microfibre Cloths

Nothing cleans deep like microfibres. One wipe removes both grease and fingerprints, with no scrubbing or drying afterwards.

How? The ultrafine microfibres literally scrape and absorb dirt from the surface, leaving behind nothing but tiny water droplets. You save time and money, especially since you can do the job with a minimum of chemicals – or none at all.

r-MicronQuick

The new recycled durable micronfibre cloth.

- ✓ Superior cleaning performance
- ✓ Streak-free and lint free cleaning
- ✓ *Up to 99.99% bovine coronavirus removal from vinyl surfaces as tested at a 3rd party lab
- ✓ Up to 99.99% bacteria removal (P. aeruginosa & S. aureus on vinyl surfaces at a 3rd party lab)
- ✓ Made of 70% recycled fibres
- ✓ High durability with up to 400 washing cycles
- ✓ Ideal for the pre-prepared cleaning method

All-purpose Cloths

A dense surface layer, high absorbency and easy to rinse, Vileda's non-woven all-purpose cloths offer a range of functional properties that keep them fresh and hygienic, use after use. Woven cloths trap dirt in the open weave of their fibres, but dirt particles are unable to penetrate a non-woven surface, and can be rinsed easily. With little or no dirt particles to feed on, the growth of bacteria and germs is greatly reduced. The Vileda cloth stays fresh longer, and the high fibre density results in capillary action, greatly improving absorbency.

WiPro (antibacterial)

WiPro is our all-purpose wipe with antibacterial properties for maintaining good material condition.

- High absorbency for extensive spill removal
- Easy to rinse out particles
- Durable in use

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application

Above the Floor Cleaning Tools

Trends in interior design are moving towards the use of glass, stainless steel, mirrors, tables, whiteboards and many other glossy finishes. These surfaces require specific solutions that traditional cleaning methods do not meet, resulting in poor results, increased cleaning time and costs. Vileda Professionals interior solutions offer fast, efficient, safe and effective cleaning of these challenging interior surfaces and even high and inaccessible areas.

MultiDuster

- Easy to wipe clean
- Doesn't harbour bacteria
- Slim design for narrow spaces
- Fits telescopic handles (180 cm)
- Can clean up to 5 m above floor

Scouring

Many scourers look alike on the outside, but if you choose one from Vileda Professional you will quickly notice the difference in terms of both quality and the end result. Poor quality scourers wear quickly once the top layer of abrasive fibres wears down, you are left with a scourer that demands more time and effort to get things clean. In a Vileda Professional scourer, every fibre is coated with grit and resin, his penetration of abrasive throughout the structure ensures superb cleaning action throughout the lifetime of the scourer. The strong resin-to-fibre bond ensures even wear of both fibres and abrasives, resulting in consistently excellent cleaning performance. Additionally Vileda Professional scourers are manufactured from nylon which does not rust, splinter, clog with debris and are easy to rinse clean.

High Foam Scourer

High Foam Scourer Heavy Duty

- High performance, black abrasive scourer with easy grip foam backing
- Suitable for the heaviest duty applications
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
101885	High Foam Scourer Heavy Duty, black	15 x 7	10	10	102565

PurActive

Effect of PurActive wave-shape

PurActives special coating easily lifts stubborn grime whilst being gentle on all hard surfaces. It cleans three times more effectively than traditional non-scratch scourers and is more gentle on surfaces than a traditional abrasive scourer. Instead of scratching the dirt away like a traditional scourer, the special wave shaped surface structure lifts the dirt from the surface without scratching resulting in time savings through faster more powerful cleaning.

PurActive

- ✓ Easily lifts grease and grime
- ✓ Gentle on all hard surfaces
- ✓ Fits comfortably in your hand
- ✓ Colour coded to help prevent cross contamination

Miraclean

Tired of pen-marked table tops, scuff-marked floors, limy washbasins, dirty white-boards, greasy sinks, finger printed walls, and ground-in dirt in general?

Miraclean is the solution to all these problem areas. With a minimum of effort and using only water it will instantly take away marks that used to be a problem. No need for aggressive chemicals, no need to struggle and sweat over annoying marks anymore, just dampen Miraclean in water and rub the mark away.

Miraclean

- The ideal problem-solver for spot-cleaning. Removes tough marks, stains and ground-in dirt with a minimum of effort where other methods normally fail.
- Works with water only, no chemicals needed
 - Strong cleaning performance with a minimum of effort
 - Certified to OEKO-TEX® STANDARD 100

Floor Cleaning

As all sites differ in size, floor coverings, volume of traffic, hygiene and health and safety requirements one floor cleaning system is not sufficient to meet all needs. That is why Vileda Professional offers a comprehensive range of sustainable durable and single use solutions tailored to match your requirements. From the new Sweep class and UltraFlex Duo pre-prepared systems, through to the bucket and press UltraSpeed Pro, UltraSpeed Mini and SuperMop systems. By choosing the correct system for your requirements you can achieve better performance, ergonomics, lower your overall total cost-in-use and improve your sustainability targets.

Swept Pre-Prepared Flat Mop System

The original Swept pre-prepared system was launched over 40 years ago. During this period the system has continually developed to stay ahead of the changing trends and demands from the marketplace. The new Swept class is the latest upgrade focusing on sustainability, ergonomics and cleaning performance. A new range of handles, frames and mops made from recycled materials, backed up by external ergonomics certificates and with proven bacteria and virus removal.

Single Use MicroFibre Mops

As a global leader in cleaning solutions, we understand challenge of the need for single use products in hygienic sensitive areas and the need to contribute to a sustainable future. So, we designed our latest range of single use mops to maintain the highest levels of microfibre cleaning performance AND be made from up to 100% recycled materials and be recyclable after use.

CombiSpeed Pro Pocket Flat Mop System

The CombiSpeed Pro system includes a wide assortment of pocket and strip mops for use in a variety of applications. From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite we have a mop that meets your requirements in terms of application, performance or budgets.

UltraSpeed Pro Flat Mop System

Ultra Speed Pro is the best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites. Start with the single bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second bucket to carry chemicals, cloths etc.

UltraSpeed Mini Flat Mop System

UltraSpeed Mini was created specifically to fulfil the requirements of all small area cleaning (10–30 m²), UltraSpeed Mini combines the ergonomic, performance and hygiene benefits of the larger UltraSpeed Pro range into a small, compact system.

UltraSpin Mini

UltraSpin Mini is a simple to use, compact system that combines a revolutionary spinning press with a 100% microfibre mop head. As you control how wet the mop head UltraSpin Mini can be used across all applications from very dry cleaning of delicate flooring through to very wet for disinfection processes. The results are effective cleaning, in less time, at lower cost and with less strain for the user.

SprayPro Inox Spray Mopping System

SprayPro Inox is the professional, ready-to-use floor cleaning system containing all you need for bucket free mopping. Just fill the handle with water and you have everything you need to clean hard flooring and staircases in one easy-to-use unit. Designed to work with all Vileda Professional mopping systems it easily adapts to your needs, whatever the cleaning task or on-site conditions.

Vertical Press Kentucky and Socket Systems

Vileda offers wet mopping kit solutions for all types of sites and applications. Built around the unique **vertical press**, they obtain the best scores in cleaning performance and cost in use. Suitable for all types of flat mops, as well as Kentucky mops (up to 400 gr). **Professional SuperMop** is a **compact socket mop system** for use in small and medium sized, hard floor areas.

Twix / Twixter System

Double cleaning in a twist
Two-stage floor cleaning systems: with double-sided mops, they are designed to wash and dry surfaces with a single mop.

Sprint V System and Sprint Plus System

Ergonomics and hygiene in just one click!
For cleaning floors in professional environments with mops with 40 and 50 cm pockets.

The Sprint Plus holder, combined with a mop cover with loops, can be easily opened and closed using the patented foot pedal, making it particularly easy to handle for general cleaning tasks.

CombiSpeed Pro – 40 and 50 cm pocket and stripe mops.

UltraSpeed Pro – Innovative 40 cm flat mop system.

Swept – Market leading pre-prepared mopping.

Twix/Twixter – Two-stage 30cm and 40 cm floor cleaning system.

Sprint System – 40 and 50 cm pocket and strip mops.

The New Sweep Class

Synchronized cleaning, ultimate success.
For offices, public buildings and healthcare facilities.

Meet the most efficient, high-performing floor cleaning system to date from Vileda Professional.
Highest efficiency synchronized with superior cleaning results at a minimized impact on the environment.
For ultimate success.

Synchronized cleaning, ultimate success.

Sweep to ultimate hygiene.
Clean deeper. With better results.

Up to 99.9% of virus and bacteria removal –
synchronized with a decreased use of water and chemicals.

Sweep to sustainability.
Clean easier. With a greener impact.

Recycled materials in high-performance mops –
synchronized with second life plastic in handles and frames.

Sweep to superior ergonomics.
Clean faster. With better ergonomics.

Versatility in size and use, symmetrical frame and mop design –
synchronized as a certified ergonomic system.

Sweep to a lower cost-in-use.
Clean smarter. With lower overall costs.

Durable, pre-prepared, double-sided mops designed with high-tech
fibres to clean more square meters with fewer mops.

The Core Range – Swep Duo

By being double sided Swep Duo mops let you clean twice the area by just flipping the frame and keep mopping. Plus you only need to purchase and to launder half the number of mops – meaning lower investments and lower usage of water, chemicals and electricity.

Swep r-Frame

Symmetrical, Ergonomic Design

- Four frame sizes for floors, walls, open areas and all surface types
- Symmetrical, hygienic design with hand grips and peelers for easy mop on / off
- Flat construction for even, consistent contact with cleaning surface
- Compatible with all Swep mops
- Plastica Seconda Vita Certified due to recycled plastic construction
- ErgoCert certified for superior ergonomics when used with Swep Pro mops and with the Ergonomic or Telescopic Handle

Specialist Application Mops

Areas with high hygiene requirements

Nothing beats microfibers when it comes to hygienic cleaning! All mops in this section have a proven 99.99 % bacteria reduction. Within health care settings the single use concept (MicroOne Mops) additionally reduces the risk of cross contamination as one mop is used per patient room and simply disposed of after use.

Swep Duo HygienePlus Pro

No Need to Tumble Dry

- Unique, reinforced 3D-structured pile that adapts to different levels in all floors
- *Can be stored in damp conditions after washing for up to 72 hours
- No need to tumble dry after laundering
- Microfibres with embedded preservative silver phosphate glass in the cut pile material
- Available in Single- and Duo-sided formats

Pocket Mops, Sprint V, and CombiSpeed Pro

The Sprint V is a special flat mop frame designed for 40 cm and 50 cm pocket mops. It offers great handling, is extremely manoeuvrable and fits a wide range of high-performance mops. There is no longer a need to pick up a dirty mop: just stand upright, push the button and release it – so easy that you can even skip the extra training.

The CombiSpeed Pro system includes a wide range of pocket mops for use in a variety of applications. Use all cleaning methods including bucket and press to lower overall costs. Thanks to the Max Mops range maximised cleaning performance and maximised easiness in use is offered. The certified mops with more than 35% recycled materials are made in Europe and are even fully recyclable in case of r-MicroSpeed Max mop and r-MicroLite Max mop due to their Mono-material composition. The CombiSpeed Pro mop range is completed with mop specialists, economic mops as well as single use mops to meet your requirements in terms of application and budget. Majority of mops are available in 40 cm and 50 cm sizes. Additional features also include barcode labels and colour coding tags as standard. With the CombiSpeed Pro cleaning system you choose the mop that suits your requirements, not the mop that suits your system.

CombiSpeed Pro Frame

- Versatile mop frame available in two sizes (40 cm and 50 cm) that can be used with all pocket and strip mop systems
- Innovative patent pending strip clamps allows easy fixation of strip mops
- Durable, lightweight, low profile design reduces stresses on operators shoulders and backs
- Cleaning under tables, radiators etc. simple and ergonomically correct

UltraSpeed Pro

Ultra Speed Pro is the most up to date, best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites. Start with the single bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

UltraSpeed Pro Single Bucket

- ✓ The fastest bucket and press microfibre mopping system
- ✓ Able to clean over 750 m² per hour in a single step or 360 m² two step process
- ✓ Fast wringing – simple to use and twice as fast
- ✓ Efficient press – releases up to 50 % more water
- ✓ Floors dry faster – reduce slip hazards
- ✓ Hygienic – no hand contact with mops or cleaning solution
- ✓ Easy to use – no training required
- ✓ Ergonomic – lightweight, no bending to wring
- ✓ Starter kits contain mop system, wringer, mop frame and mop pad
- ✓ Bucket is made from recycled material (>50% r-PP)

Clear Layout

A well-organized design ensures you always know where everything is, maximizing the use of available space in the cleaning trolley.

Panning lid for enhanced security and organization

The panning lid prevents direct access to the top of the Equipe trolley, offering extra space for additional equipment while ensuring everything remains clean, organized, and discreetly stored.

Uniform locking system for enhanced security

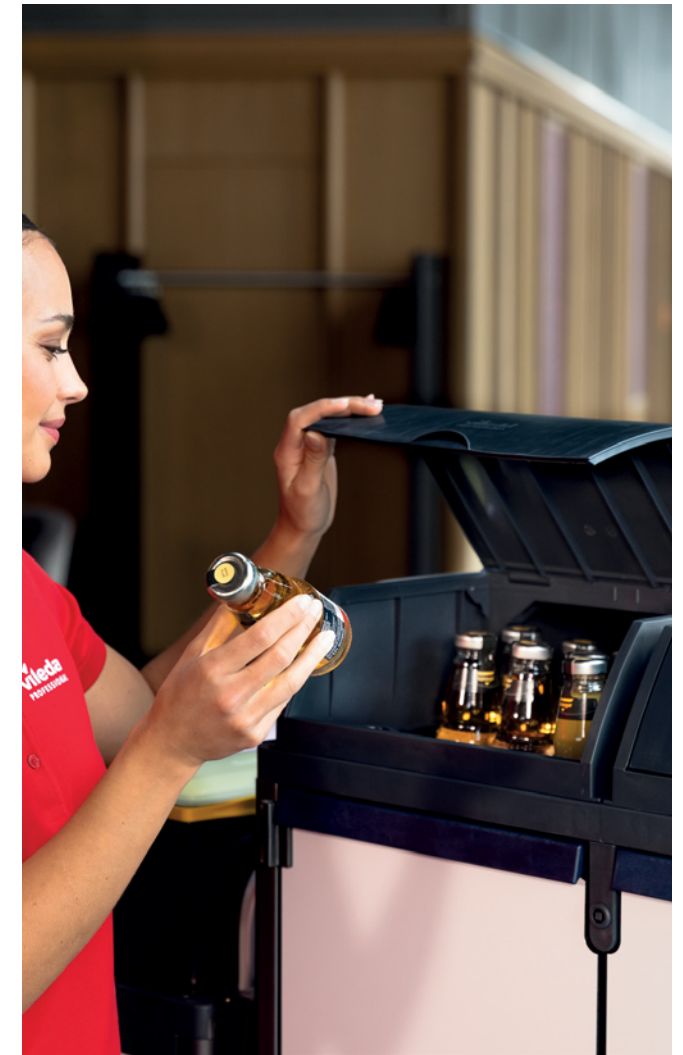

The uniform locking system ensures that one master key can close all the locks on the trolley, including the doors. This provides secure storage and prevents unauthorised access.

Ease-of-training

The clear, intuitive layout makes trainings, onboardings, and daily use faster and more efficient than ever before.

Digital ready

Easily attach a digital tablet using the Equipe tablet holder (sold separately) or combine it with the Vermop One software solution for a fully connected, smart cleaning experience – available in the DACH region.

Brushware

Constructed from easy-to-clean high grade plastic and synthetic filaments, Vileda’s hygienic brooms are designed for outlast and outperform ordinary brooms. The Superior brushware range offers best in class hygiene in use. The abrasion resistant bristles consist of Polyester PBT-filaments with excellent bend recovery and sweeping performance as well as a high resistance to a wide range of chemicals, oils, organic solvents and detergents. The strong Polypropylene plastic material withstands heavy use. Its smooth finish helps to prevent soil clinging to the surface. Stainless-steel staples fix the tufts and ensure longlasting rust-free hygiene. The Superior broom- and brushware range is heat resistant and can be autoclaved up to 134°C for optimal hygiene.

Superior Deck Scrubber

- Fast and efficient wet scrubbing of floors and walls
- Strong PBT-tufts fixed with stainless steel staples in the durable
- Polypropylene scrubber-body with pin hole
- Autoclavable up to 134 °C

Gloves

Chemical or mechanical hazards, heavy-duty cleaning, microbiological hazards, and foodstuff handling – the directives for Personal Protective Equipment (PPE) are clear: employees have to provide their staff with appropriate protection against hazards.

Vileda Professional gloves are the answer to the various needs to meet the different professional cleaning needs as well as the legal requirements. Vileda Professional offers a complete range of protective and comfortable gloves, each suitable for its respective professional task.

To optimize glove economy – as a part of your total cleaning costs – be sure to select the right glove for the job. As each glove has its top protection focus it’s easy to select the most suitable one, and thereby investing in exactly the right performance you expect from the glove.

Labeling Symbols

Symbol	Pictogram meaning	Information

How to use gloves

1. Before putting on gloves

Clean and dry your hands thoroughly before putting on gloves.

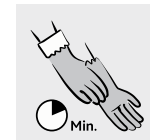

2. Do not reuse damaged gloves

Please use only gloves which do not have any damages like holes or tears.

3. How to put on gloves

Please turn the cuffs in order to prevent liquids to flow into the glove.

4. Usage duration

Do not use one pair of gloves for too long: please check the chemical recommendation, alternate between 2–3 pairs if long time use is required.

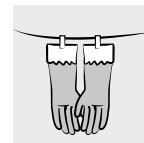

5. Clean gloves after usage

Please clean the gloves before taking them off: after contact with acid or alkaline chemicals please wash off with water and dry afterwards.

6. How to take off gloves

Please do not touch the outer side of the gloves while taking them off: avoid contact to chemicals / bacteria.

7. How to store used gloves

Take care that the used gloves dry properly until next use by e.g.: putting the gloves on a gloves rack, hanging the gloves on a (clothes) line.

8. Hand care after usage

After taking off the gloves, please wash your hands and use a suitable hand cream.

Waste Management

You take pride in offering a clean and inviting environment for your customers. You understand how important your premises are as a competition factor in your business as well as a vital part of your image. Then you also realise that waste management is an important part of your overall cleaning strategies. So do we, and that's why we offer you complete solutions for keeping your premises attractive – from cleaning systems to our waste management range.

Hera – HACCP complying pedal bins

The Hera range of pedal bins comply with HACCP recommendations for 'hands free' operation, making them ideal for use in a variety of applications – from healthcare patient rooms through to food preparation areas where it is crucial to avoid cross contamination.

- Slow closing lid – ideal for quiet environments
- Hands Free Operation – complies with HACCP recommendations
- Large pedal – ideal for use with safety shoes in professional environments
- Overlapping lid design – keeps odours inside
- Integrated bag holder – ensures the correct fit of your waste bag
- Smooth design – easy to clean
- Anti-slip rubber bumpers – avoids movement in use and protect flooring
